Tutor Program

at St Peter's Girls

The St Peter's Girls' School Tutor Program is a free service provided to Year 7 – 12 students. The purpose of the program is to nurture positive study habits, while supporting students to understand their classroom learning, consolidate their knowledge and navigate the complexities of their Middle and Senior School studies. The aim is for students to become successful and independent learners who approach their studies with confidence.

This is a highly flexible program that students can use at any time. Whether your daughter needs some extra assistance in a specific subject area or with a current project or assignment, our team of tutors can help.

Benefits of Tutoring

Tutoring sessions help nurture positive study habits in students and provide an opportunity for girls to spend extra time practicing new skills. By increasing their confidence in the tasks at hand, students will build their self-esteem, increase their motivation and flourish as self-directed learners.

By using this service, students can:

- ✓ Improve their understanding across a variety of topics covered during class time
- ✓ Receive assistance in completing homework tasks
- ✓ Receive individualised attention from the tutor, who works with students in small groups to increase knowledge and understanding of subjects.

Flexible Sessions

Through the Tutor Program, students in Years 7 – 12 can receive help in key subject areas. Specialist subjects are available depending on individual needs.

Sessions are held regularly to provide opportunities for students to seek assistance. This service incurs no charge to families and students can attend as many sessions as needed. Tutoring sessions occur before and after School:

- **Monday - Friday, 7.30 – 8.30am**
- **Monday - Thursday, 3.45 – 4.45pm**

All sessions are held in the Library. Students should bring their laptop as well as their assignment or sheet of work in which they require assistance.

Our Old Scholar Tutors

Our tutors are recent St Peter's Girls' Old Scholars, who understand the demands of being a student. These Old Scholars are some of our best and brightest graduates who have excelled in their studies and are currently pursuing rigorous tertiary studies or exciting career paths. Our tutors have been carefully selected to cover key subject areas in both SACE and IB Diploma and are employed by the School.

More Information

To learn more about the Signature Programs offered at St Peter's Girls' School, please visit:

Economics	Japanese	Sciences
English	Legal Studies	Visual Arts

How to Join

Students can easily sign up to a tutoring session via our online learning platform, Canvas. They may like to see the tutor regularly or as a once-off visit for assistance. Students can nominate their tutor or can be placed with an appropriate tutor. If students are working on a group project, they may sign up together and work on tasks collaboratively.

“ Student Voice

The Tutor Program has really helped me with my homework. It gives you a one-on-one session where you don't have to worry about what you say. This is really important as I am quite shy. My tutor has helped with my English assignments and has been amazing as she has helped to improve my writing techniques.

- YEAR 8 STUDENT

The Tutor Program is very beneficial as it provides me with confidence, instead of feeling stressed about not understanding a topic or an assignment. The tutors are considerate, helpful and understanding, and have valid information to share. They know how to effectively use time and work through problems easily.

The tutors have helped me with my confidence by going through homework questions. They are always on time and don't get frustrated if you don't understand something.
